Educational Extra Curricular and Activities

Gifted & Talented by *Veronica Bakhrakh*

Dear Parents, we are pleased to offer preparation classes for Gifted and Talented exam taught by a highly reputable teacher, Veronica Bakhrakh both in English and Russian. She has been known to get terrific results and she had joined our team to teach groups for **3-4 years old** and **4-5 years old**. Mrs. Bakhrakh offers an engaging approach to learning by integrating hands on activities, creating fun and interactive environment as well as direct testing. She will make sure each child is getting the attention they need and will cover all the important topics and provide all the fundamental skills they will need to take this exam.

Saturday 12.30pm –1.15pm. Price - \$25 per class.

Please, contact us to enroll your child. Seats are limited.

[Gifted & Talented](#) by Lily Katz

In order to succeed on the OLSAT (Gifted and Talented Program), students must perceive accurately and recall what they have read, understand patterns and relationships, reason abstract items and apply generalization to contexts. These capabilities are measured through performance, classification, analogies, following directions, oral reasoning, sequencing and matrix completion. The gifted and talented program will prepare your child to successfully pass the test and help your child with the needed skills such as attention/concentration, sequencing of patterns, classification, analogies, and ability to answer questions similar to the test items.

The OLSAT test has two parts, which includes a verbal reasoning and non-verbal reasoning. There are 3 type of questions used to test verbal skills: 1) following directions 2) oral reasoning 3) arithmetic reasoning. Nonverbal skills focus on a child's visual spatial and arithmetic reasoning. There are 4 types of questions that are used to evaluate nonverbal skills 1) analogies 2) classification 3) series 4) pattern matrix. All lessons could be instructed in Hebrew, Russian, or English.

Saturday 12.30pm –1.15pm. Price - \$25 per class.

Please, contact us to enroll your child. Seats are limited.

[Brain Power Program](#) by Lily Katz

The Brain Power program is recommended for children ages 4-6. The Skills that are going to be assessed and worked on are: mathematics, language skills, fine motor skills, concentration, memory and logic. The first lesson would focus on testing your child's ability to complete tasks that are appropriate for his/her age and discover his/her strengths and weaknesses. Following results of the test and collaboration with the child's parents an individualized program will be created to address the child's specific needs. The following sessions will be focused on improving the child's abilities, and emphasizing his/her strengths, while also teaching the child to enjoy learning. All lessons could be instructed in Hebrew, Russian, or English.

Saturday 12.30pm –1.15pm. Price - \$25 per class.

Please, contact us to enroll your child. Seats are limited.

[Russian Language – “Lessons of Joy”](#) by Tatiana Tokareva

Welcome to UniKids LESSONS OF JOY! These lessons reveal beauty of the Russian language and culture. The program is designed to develop enriched vocabulary and skills in spoken and written language, as well as memory and logical thinking. Our lessons are based on individual approach and filled with joy. Register now!

For Unikids students classes will take place during regular curriculum time.

Price for 2 hour class is - \$35 per class.

Please, contact us to enroll your child. Seats are limited.

[FasTracKids](#)

FasTrackKids® program offers a combination of learning skills known as the FasTrack® Advantages. These advantages focus on the process of learning HOW to think, NOT simply memorizing the content of learning, while having fun in the classroom! FasTrackKids offers Five Advantages of Learning: skills for critical thinking, creativity, communication, collaboration and confidence. FasTrackKids offers an immersive extracurricular experience that lets your child sample a little about a lot. Students explore: Biology, Creativity, Technology & How Things Work, Earth Sciences, Goals & Life Lessons, Astronomy, Mathematics, Literature, Natural Science, Speech, Drama & Art, Communication, Economics. This expansive program is completed in four 2-hour sessions per month for a duration of 2 years, and utilizes virtual courses to make such a vast topic structure possible.

Visit FasTrackKids official website for more info: <http://www.fastrackkids.com>

**For Unikids students classes will take place during regular curriculum time once a week.
Price for 4 classes- \$220.**
